Subject: Mark Evans/ safety/ I called Sheriff

Good day and I hope you all are healthy and safe.

I have written several times with safety concerns as it is tied to hostile Mark Evans. I want to tell you about an incident that happened last night.

I have repeatedly told Mark to stop publicly sharing my last name. I work for the Department of Defense's accounting department and they want our user information low key on social media.

Mark knows this and in the last month began to publicize my full name on Facebook, putting me at a security risk.

A few days ago I received a crazy and threatening instant message from a Donnie Spitzer.

Last night I received a bunch more but this time he proceeded to send me my

Social security number

Address

Phone number

Place of employment

He threatened to publicize not only my information but my children's information as well. And he threatened to call my employer, <<REDACTED>>

Donnie Spitzer succeeded a tiny bit. He immediately went on social media. (Etna Community) and began to post my personal information but someone saw it and the administrator deleted his post immediately.

I called my local Sheriff's office and they came out to my home last night and took a report in which they will pursue.

If Mark Evans wouldn't have started posting my full name (which was done in a vindictive manner), this gentleman named Donnie Spitzer wouldn't have my PII because I don't use my real name or last name on social media.

This is the level of CRAZY Trustee Mark Evans has gotten us to. Evans is mentally unstable and plays dangerous games to the point people feel unsafe.

Last summer, someone let the air out of all my tires on my car.

The other day on FB a user named Princess Cam (Melissa Campbell) posted that she knew where I lived and would be coming to my door!

Nobody is safe now. My family is scared and concerned as well. Mark Evans breeds hatred in our community.

Respectfully submitted,

XXXXXXXX
